RAK-SKIN

Unconventional feeling

RAK-Skin represents more than just an exclusive collection of washbasins; it epitomizes a distinctive and avant-garde finishing touch. The innovative materials utilized possess a gentle, embracing quality, resulting in an extraordinarily refined aesthetic. The impact is truly unique, specially crafted for extraordinary environments. When paired with RAK Ceramics’ bathroom furniture featuring wood-effect materials, RAK-Skin washbasins elevate the bathroom into a realm of exceptional comfort, achieved through a harmonious interplay of warm-toned finishes. Conversely, when adorned with the stone effect, the washbasins take on a starring role in creating contrast; the fusion of warm and cold hues yields a soft and soothing outcome.

TACTILE MATERIALS FOR MODERN DESIGN

Touching is not just a sensation, but a human need and today interior design aims at recapturing through it the real essence of life, reacting in this way to the overwhelming presence of technology and digitalism in our everyday lives. In an increasingly digital world, the desire for physicality and authenticity is growing. A desire that translates into tactile and natural materials made to be touched with the eyes, even before with the hands. Tactile materials play a leading role in design lately: from floors to walls, from furniture to bathroom products. Many variations, one goal: to convey a feeling of comfort and warmth. Thus color, matter and light interact on the surfaces, defining the character of the environments. Material surfaces have the power to reconnect with nature and make us feel positive emotions. Important feelings to live in our homes, which have become a real need.

RAK-Skin was born from this need of physicality, and the pursuit of harmony with domestic contexts minimalist and sophisticated style, made of natural colors and materials with a strong and distinctive character.
